Professional Summary

Full Stack Developer with 9+ months of experience shipping **4+ production-grade applications** across billing, inventory, and e-commerce — proficient in **React.js, Node.js, MongoDB, REST APIs, JWT, RBAC, and CI/CD deployment**.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), TypeScript (Basic), HTML5, CSS3, Tailwind CSS, Material UI.
- **Backend:** Node.js, Express.js | **Database:** MongoDB, SQL.
- **Cloud & DevOps:** AWS(Basic), Docker(Basic).
- **Tools:** Git, GitHub, Postman, VS Code, GitHub Copilot, npm.
- **Deployment:** Vercel, Hostinger, Render | **Computer Concepts:** REST API Design, JWT authentication, RBAC, OOP, Responsive Web Design, Agile, SDLC, CI/CD, MVC Architecture, **Data Structures & Algorithms**, Operating System.

Experience

MERN Stack Developer

Ematix Embedded and Software Solutions Pvt. Ltd.

June 2025 – March 2026

- Architected and deployed **4+ production-grade MERN Stack applications** (billing, inventory, e-commerce) from schema design to live deployment, **reducing average release cycle by 40%** through structured CI/CD pipelines.
- Engineered **30+ reusable React.js components** with modular architecture, **cutting UI development time by 35%** across all projects and ensuring consistent UX at scale.
- Designed and documented **30+ secure REST APIs** with JWT authentication, RBAC, and middleware layers — **achieving 100% endpoint coverage** and enabling seamless third-party integrations across 3 domains.
- Automated GST-compliant billing, quotation, and real-time inventory workflows — **eliminating 70% of manual effort** and processing **200+ daily transactions** with zero calculation errors.

Projects

BioInnov Solution Website (MERN)

[Live](#)

- Built a dynamic business website with **8+ custom REST APIs** and a self-service admin CMS, **reducing content update time by 40%** and eliminating developer dependency for routine changes.
- Replaced manual code edits with an admin-driven CMS covering **10+ content sections**, improving maintainability and **saving 3 hours/week** of developer intervention.

InventoryFlow – Smart Inventory & Warehouse Management (MERN)

[Live](#)

- Built a full-scale inventory management system with **10+ modules** (Products, Warehouses, Purchases, Sales, Stock Transfers, Analytics) with real-time stock tracking and bin-level warehouse management across multiple locations.
- Designed **12+ REST APIs** with RBAC and JWT authentication, automating purchase-to-sales workflows and **reducing manual stock reconciliation effort by 60%** across warehouse and billing operations.

Sri Kannan Silks – E-Commerce Website (MERN)

[Live](#)

- Built product listing, cart, and admin dashboard for a live storefront handling **150+ products**, enabling end-to-end online sales flow with **zero downtime** post-deployment.
- Implemented a mobile-first UI with scalable REST APIs, achieving **sub-2s page loads** across all product and order flows — improving user retention and reducing mobile bounce rate.

Education

B.E. Computer Science and Engineering

Mahendra College of Engineering, Anna University – Salem, Tamil Nadu
CGPA: 8.23

2021 – 2025

Higher Secondary (12th)

Sri Gayathri Matric Higher Secondary School – Salem, Tamil Nadu
Percentage: 91.8%

2020 - 2021
